

Cyber Security Awareness Training Program – 2nd Course Offering

Please be advised that the second security awareness training course offering – Social Engineering Fundamentals - is now available to all staff. This course discusses the different types of social engineering and provides examples of the most common attacks made against organizations.

Please follow the instructions below to begin the Social Engineering Fundamentals course.

1. Visit the training website at <https://sc.thesacschools.com/>
2. Click on the “Log In” tab located at the far right side of the page
3. Enter your username and password
4. Scroll down to “Available Courses” and select the “Social Engineering Fundamentals” course link
5. Click “Enter” to launch course
6. Sit back and enjoy the training
7. Take the quiz at the end of the course
8. Click “Finish”, then “Exit” to return to the LMS
9. Click the “Exit Activity” link
10. Select the “Certificate” link to print your certificate

Please be reminded to turn the compatibility view on for this website to ensure that your information is recorded properly and your certificate prints. Thank you for your participation and commitment to helping raise cyber security awareness in the state of South Carolina.
