

Human Resource Letter No. 11-20
2012 Legislation Related to Payroll Tax Cuts

The net pay amount of your payroll checks beginning with the January 1, 2012 payroll check or direct deposit will change due to legislation related to payroll tax cuts. Federal tax cuts that were effective for the 2011 payroll reducing the social security tax withholding has expired. The rate will revert back to 6.2% from the reduced 4.2% 2011 rate. Payroll has also been updated with the new health and dental plan rates from the Employee Insurance Program.

Click [here](#) to view a letter detailing the payroll changes from the Office of the Comptroller General. Please let me know if you have any questions.
