Workers' Compensation Commission

ATTORNEY'S ENCOURAGED TO USE eCASE TO FILE LETTER OF REPRESENTATION

June 26, 2018

Attorneys must write the Commission's Judicial Department to notify the Commission of their representation of a party pursuant to Reg. 67-1202. This may be done by letter or by using eCase, the electronic notice function available through the Commission's On-Line Reporting Interface. The Judicial Department encourages attorneys to use eCase rather than submit a letter to fulfill this requirement.

Using eCase to notice the Commission of an Attorney's representation ensures that the Attorney is promptly added to the correct file in a time efficient and accurate manner. Written letters of representation printed out and physically sent to the Commission by mail are costly, time-consuming, and at greater risk of being recorded in error. Please use eCase to notify the Judicial Department electronically of the Attorney's representation.

To login to eCase click [here](#).
